

REWILDING

Presentment by Mr Mike Eccles, Practicing Commoner

'I was alerted to and read a news item in The Telegraph (7/11/20). This involved plans to rewild 10% of Exmoor National Park by Exmoor National Park Authority. Whilst no detailed plans were shown, local users were concerned about loss of sheep & cattle grazing.

I would hope the introduction in the Forest of lynx, wolves & any gifts of beavers from the Prime Minister would not be considered as if they were, our rights would be affected!'
